Employee Engagement Consulting

Help your talent feel valued, recognized and invested in the success of the organization through a unique partnership with proven results.

“Kim is fearless in pushing me to evaluate what I can do next...”

Employee Engagement Program

Training: Teams will be led through a half-day employee engagement workshop that motivates them to take ownership of their careers and unleash their true potential.

Coaching: In the mutually designed partnership of coaching, team members will design and employ a personal engagement plan that syncs with professional and organizational objectives; taps into strengths; builds professional skillsets; while helping them overcome obstacles and realize career success. The initial one-on-one coaching session will take place onsite following the training.

Experience: Kim has over 15 years experience in the career engagement industry and over six as an on-site human resources consultant, successfully developing and administering full-scale coaching and training initiatives that maximize talent and increase engagement.
